

Kentucky Dataseam Scholar at the University of Louisville

Specifically offered to students attending schools that are participating in the Kentucky Dataseam Coal County Computing Project. Ten students each year will be awarded a \$2,000 a year scholarship which is renewable for four years. Funds cover costs at the University of Louisville. Program is designed for students interested in studying Science, Technology, Engineering, Math or teaching those subjects. Students can learn more about this unique program by contacting UofL Admission Office directly at tom.brammer@louisville.edu.
